

Seder Plate

Make a Seder Plate to learn about the Passover symbols. Color the Seder Plate pictured below and cut it out. Then cut along the bold lines to divide the Seder Plate into sections. Next, cut a circle the same size as the Seder Plate out of a separate sheet of paper. Attach the centers of the two circles with glue or a brass fastener. Finally, lift up each section of the Seder Plate and on the paper under it, write a brief description of the food that is pictured and what it symbolizes.
